## **Best Practices**

### **Best Practice:01**

#### **1. Title of Practice: Teacher Sponsored Student Aid Fund (TSSAF):**

#### **2. Objectives of the Practice:**

- (1) To provide educational and psychosocial support to needy and poor students
- (2) To reduce chances of dropout of students for lack of any institutional support.
- (3) To help girl students through donation of bicycles and other educational material for continuation of their education.

#### **3. The context:**

The basic motive of this scheme is that 'no student should drop his/her education for the want of money'. As Solapur region falls under drought prone area and student's community from our college belong to poor to average background there is need to provide financial support to sustain their education.

#### **4. The Practice:**

Under this innovative scheme all our teachers unanimously came forward with a genuine motive to help poor and needy students. The basic aim is that 'no student should drop his/her education for lack of money, personal and social problems'. This scheme since its inception from academic year 2011-12 has been appreciated and hailed by print media as well as general public of this region. This initiative works in following steps.

1. Applications are invited from students who wish to avail support, guidance and help from TSSAF.
2. The applications are then scrutinized by college committee to verify the needs and demands of students.
3. Students are called for interview and the committee members then identify the nature of problems the students face (personal, academic and social) and they are counselled.
4. After proper verification the students are offered necessary support for their continuation of education.

#### **5. Evidence of Success:**

1. Each year we receive more than 150 applications for various kinds of support from poor and needy students.
2. Direct interaction with students helped in establishing an emotional bond student fraternity. Students freely shared their academic, social and personal problems during their interaction with teachers. This has also helped us in extending them moral, personal, psychosocial support for students.
3. The process has till now helped more than 1000 poor students in continuing their undergraduate education.
4. Students were offered help in the form of college uniform, college bags, admission fees, examination fees, bus passes, notebooks, books, Study tour fees, apron, dissection box etc. as per their requirement.
5. Additionally, 'Bicycles for Girl Student', another scheme launched with the generous donation from faculty has helped poor and needy girl students who cannot manage to afford to even pay for regular bus charges to reach college. As of today, more than 5 girls have taken benefit of this scheme and could continue their education.
6. This scheme since its launch has really helped us to tackle the absentee and has reduced drop out too.
7. This scheme has received accolades from management, print media and civil society.

#### **6. Problems Encountered and Resources Required:**

1. Corpus fund as necessary for the number of applicants
2. Human resource Obstacles faced/Problems encountered:
3. The scheme received overwhelming response and hence the number of applications received is more than the available fund.
4. We also received few proxy applications from students from well to-do families. 5. The problems were faced with proper discussion and counselling of students.
